

ASCEND 90

Nonionic Surfactant

GENERAL INFORMATION

Ascend 90 is a high-performance nonionic surfactant formulated to improve the effectiveness of agricultural spray applications. Its advanced blend of nonionic surfactants and organosilicone technology promotes rapid spreading, enhanced wetting, and strong adhesion across plant surfaces.

By significantly reducing surface tension, Ascend 90 helps spray droplets cover more leaf area, improves deposition, and reduces droplet bounce for more uniform coverage.

HANDLING AND STORAGE

Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Do not get in eyes, on skin, or on clothing. Keep container tightly closed in a cool, dry, and well-ventilated place. Protect from sunlight. Personal protective equipment: Wear chemical-resistant gloves, long-sleeved shirt and long pants, socks and shoes.

DIRECTIONS FOR USE

Always follow the pesticide manufacturer's directions and mixing instructions. For specific recommendations, consult your certified crop advisor.

Ascend 90 is a low-foaming surfactant compatible with many chemical formulations, including dry flowables. When combining unfamiliar products, perform a jar test prior to tank mixing.

USE RATE

Apply 1 to 2 quarts per 100 gallons of spray solution, unless otherwise directed by the chemical label.

PRINCIPAL FUNCTIONING AGENTS

Nonionic Surfactant & Organosilicone.....	90%
Inert Composition.....	10%
Total.....	100%

NPE & APE FREE

CAUTION: KEEP OUT OF REACH OF CHILDREN

May cause skin and eye irritation. Avoid eye and skin contact. Do not take internally.

NET CONTENTS:
2.5 U.S. GALLONS (9.46 L)
