

# ASCEND Burner

Methylated Seed Oil

## GENERAL INFORMATION

Ascend Burner is a methylated seed oil adjuvant formulated to support the performance of post-emergence herbicides. Its proprietary combination of seed oil, surfactants, and emulsifiers promotes consistent mixing throughout the spray solution.

Designed as an alternative to petroleum-based crop oils, Ascend Burner may improve herbicide activity when used according to the pesticide label.

## HANDLING AND STORAGE

Harmful if inhaled or absorbed through the skin. Avoid contact with skin, eyes, and clothing. Do not breathe spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, smoking, or using tobacco.

Remove and wash contaminated clothing before reuse. Wear chemical-resistant gloves, a long-sleeved shirt, long pants, shoes, and socks. Keep the container tightly closed and store in a cool, dry, well-ventilated area.

## DIRECTIONS FOR USE

Shake well before use. Fill the spray tank approximately halfway with water and begin agitation. Add herbicides or pesticides according to their respective label directions. After those products are thoroughly dispersed, add Ascend Burner at the recommended rate. Continue agitation while adding the remaining water.

Always follow the pesticide label for mixing order, application requirements, and adjuvant recommendations.

## USE RATE

- Follow the pesticide label recommendations for methylated seed oil.
- Apply 1-8 quarts per 100 gallons of spray solution.
- Certain in-crop applications may require a lower rate of 4-16 fluid ounces per acre.

## PRINCIPAL FUNCTIONING AGENTS

Methylated Seed Oil Adjuvant, Surfactant and Emulsifiers ..... 100%  
Total ..... 100%  
Surfactant Blend: 5%  
NPE & APE FREE

### CAUTION: KEEP OUT OF REACH OF CHILDREN

May cause skin and eye irritation. Avoid eye and skin contact. Do not take internally.
