NET CONTENTS:
2.5 U.S. GALLONS (9.46 L)

GENERAL INFORMATION

Foliar Pop is a concentrated foliar fertilizer that supplies nitrogen, potassium, sulfur, and a balanced blend of micronutrients. It is formulated to support nutrient uptake, photosynthesis, protein synthesis, cell development, reproductive growth, and overall crop performance.

The fulvic acids help support nutrient availability and movement within the plant, making Foliar Pop a flexible addition to a balanced crop-nutrition program.

APPLICATION RATES

FOLIAR APPLICATION

Apply 32 fluid ounces - 2 gallons per acre.

For proper agronomic application rates suitable for your geographical area or the maximum allowable non-nutrient application rate per acre, consult a trained soil agronomist.
