

ASCEND FullStride

All-in-One Adjuvant

GENERAL INFORMATION

Simplify herbicide applications with an efficient, low-use-rate adjuvant designed to deliver multiple performance benefits in one product. FullStride enhances spray coverage and herbicide uptake with its high-performing nonionic spreader/penetrant, drift reduction, AMS replacement, and crop oil functionality. Built-in pH adjustment helps lower spray solution pH to support consistent herbicide performance. Suitable for both ground and aerial applications.

PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of organic acids, phosphates, free fatty acids, & siloxane derivatives.....99%
 Constituents ineffective as adjuvants1%
 Total.....100%
 NPE & APE FREE

DIRECTIONS FOR USE

Add FullStride to the spray tank while maintaining continuous agitation. FullStride may be used with herbicides, desiccants, insecticides, and fungicides.

Before use, read and follow all directions, precautions, restrictions, mixing instructions, and adjuvant recommendations on this label and the accompanying pesticide label.

USE RATE

GROUND APPLICATIONS

Spray Solution (GPA)	Rate of FullStride
7-10 GPA.....	20-30 oz/100 gal
10-15 GPA.....	15-20 oz/100 gal
More than 15 GPA.....	15-18 oz/100 gal

AERIAL APPLICATIONS

Spray Volume	Rate of FullStride
1-5 GPA.....	40-50 oz/100 gal
