

# Humic Acids 20%

## 0-0-5

**NET CONTENTS:**  
2.5 U.S. GALLONS (9.46 L)

### **i** GENERAL INFORMATION

This product supplies potassium and 20% humic acids derived from leonardite. Its highly soluble formulation is suitable for use in both high and low pH systems.

When incorporated into a starter-fertilizer or soil-fertility program, humic acids help support nutrient retention and availability within the soil profile. This encourages healthy root development, improved nutrient uptake, and vigorous growth.
